

OMAXE
ETERNITY²
RAAL ROAD, VRINDAVAN

A Globally Renowned Spiritual Destination

Since 1987, Omaxe has been at the forefront of transforming the Indian real estate landscape. Driven by a relentless commitment to world-class service, the company boasts a diverse portfolio comprising integrated and high-tech townships, group housing, SCOs, shopping malls, and hotels.

The journey of Omaxe started almost four decades ago when first-generation entrepreneur Mr. Rohtaas Goel laid the foundations to undertake the construction and contracting business. Omaxe launched its first real estate project with executive floors in 2001 in Gurugram. From those humble beginnings to being listed on the NSE and BSE in 2007 to becoming a company with a net worth of 1,638 crores in 2020, Omaxe has come a long way.

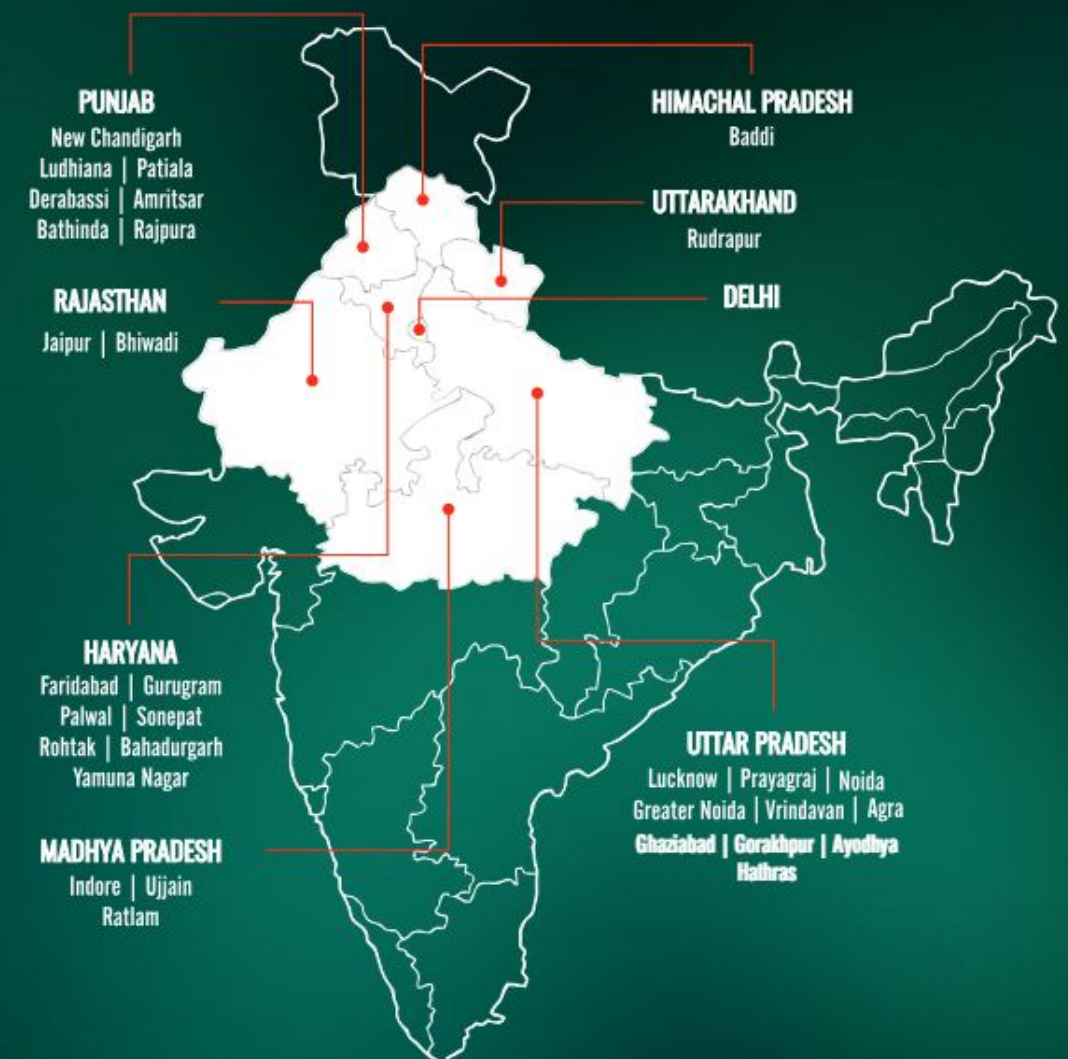

True to its motto of "Turning Dreams into Reality," Omaxe has consistently provided customers with their dream living spaces over the decades. This has been vindicated by the long-standing relationship that Omaxe has with its customers and the smiles it has earned through the years for its exceptional work.

Omaxe built its first integrated 85-acre township in Greater Noida in 2003. Since then, it has built several marquee projects like Omaxe Chowk in Delhi (a landmark project built on the PPP model with the MCD), the sprawling 1,000-acre Omaxe New Chandigarh township, and the architecturally brilliant World Street in Faridabad, to name a few. The company has now spread its wings across 31 cities in 8 states and is truly committed to building a new India.

However, Omaxe's outstanding work doesn't stop with its projects. As part of its corporate social responsibility, it has taken great strides in various sectors like health, education, community development, and more, to change the world for the better.

Vrindavan

A tier 1 City in the making

Greenfield Expressway From Yamuna Expressway To Banke Bihari Temple

A 7-kilometer-long expressway will be constructed from the Yamuna Expressway to the Banke Bihari temple in Vrindavan. It will start near the Vrindavan exit on the Yamuna Expressway and end approximately 1.5 kilometres before reaching the temple.

Grand Corridor Around Banke Bihari Temple

A grand corridor is planned on five acres of land surrounding the iconic Banke Bihari temple in Vrindavan. This corridor is designed to accommodate up to 5,000 devotees at a time, providing a dedicated space for worshippers.

Saubhari Nagar Van (city Forest)

India's largest city forest, Saubhari Nagar Van, is being developed on 130 hectares of land near Sunrakh village in Vrindavan.

Krishnadhham In Vrindavan

In the heart of Vrindavan, the sacred & remarkable creation is unfolding - the Vrindavan Chandrodaya Mandir. This temple, still in its early stages of construction, aspires to become the biggest religious monument our world has ever seen.

Noida International Airport

The new Noida International Airport, also known as the Jewar International Airport, is located closer to Vrindavan than Delhi. This airport offers a more convenient travel option, reducing the travel time.

Key Reasons To Invest In Vrindavan's Commercial Realty

Vrindavan stands as a promising investment hub due to improved infrastructure, spiritual significance & economic diversification.

In the past, visitors primarily came for religious reasons. Now people visit for business reasons as well.

A noticeable trend has been the population growth, attributed to the significant economic opportunities driving migration from nearby areas.

Uttar Pradesh exhibits a higher urban population, clearly showing an immediate need for retail development.

An aerial view of a large, planned residential development. The foreground shows a wide, paved road with a few cars. A grand entrance is marked by three ornate, light-colored stone gateposts, each topped with a golden dome. A black metal fence runs across the road in front of the gateposts. To the right of the gateposts, a sign reads "OMAXE ETERNITY 2". The middle ground is filled with a vast grid of green, rectangular plots, each surrounded by a path and lined with palm trees. The background shows a dense forest of trees and distant mountains under a blue sky with scattered clouds.

A photograph of a stone path leading through a dense, lush green forest. The path is made of irregular, light-colored stones and is flanked by tall, leafy trees and bushes. In the background, a city skyline with several high-rise buildings is visible against a warm, orange-hued sky, suggesting a sunset or sunrise. The overall scene is peaceful and natural, contrasting the urban environment with the forest.
